Traveler's Notes

Beartooth Lake Montana

The most famous of the Beartooth Highway's adjoining scenic byways is the historic Chief Joseph Scenic Byway. Designated by Wyoming as a state byway in 2000, the Chief Joseph followed as he and his band of followers fled toward the Canadian border.

US Highway 14-16-20, the Buffalo Bill Cody Scenic Byway, follows the North Fork of the Shoshone River through the scenic Wapiti Valley to the East Entrance of Yellowstone National Park. The route is known for its abundant wildlife, astonishing rock formations, and recreational opportunities.

Heading north from the Beartooth Highway and into Montana's "big sky country" drivers can hook up with the Montana Scenic Loop. The 400-mile loop takes visitors through 4 National Forests 15 of Montana's rural communities, and to Glacier National Park.

Facts & More Information To Plan Your Trip!

Beartooth Highway near Beartooth Pass.

- **Scenic Route 78:** The Beartooth Front Scenic Drive is a forty-six mile scenic journey through the valleys and foothills found along the northern front of the Beartooth Mountains. The route follows Highway 78, a paved highway, between the towns of Columbus and Red Lodge, Montana.
- **Red Lodge:** Nestled against Montana's highest mountain peaks, Red Lodge is a place of extraordinary beauty and, wherever you turn, real smiles, genuine warmth and a welcoming, Western-style hospitality.
- **Rock Creek Vista Point:** This wayside is twenty-one miles from Red Lodge. Vista Point provides breathtaking views of Rock Creek Canyon and Hell roaring Plateau. The short trail to the overlook is wheelchair accessible.
- **Twin Lakes Headwall:** With unique terrain comes a unique opportunity to ski atop the Beartooth Plateau at the Twin Lakes Headwall. Formerly a private ski snowboard camp Beartooth Basin is open to the public daily!
- **Gardner Lake:** This is the trailhead for the Beartooth Loop National Recreation Trail. It is also a great location for viewing the Bear's Tooth, a pyramidal rock formation carved by glaciers and the namesake of the Beartooth All-American Road. Look for alpine flowers in mid-July.
- **Clay Butte Lookout:** Visitors are welcome to take in the panoramic views that include Montana's highest point, Granite Peak and Beartooth Butte, and enjoy the interpretive displays of the 1988 wildfires that burned in and around Yellowstone National Park.
- **Chief Joseph Scenic Highway:** The most predictable times to drive this highway are during the fall and summer. During the winter months snow plows keep the roadway open to just east of the entrance to Yellowstone National Park. Allow one hour minimum driving time.

Ready, set, go!
