Flume Gorge

- Undoubtedly, one of the most spectacular and popular highways in the White Mountains, the Kancamagus Highway, which stretches 341/2 miles from Conway in the east to Lincoln in the west. "The Kanc" includes several federally designated scenic areas and overlooks that provide travelers with truly breathtaking views.
- A highway framed by the towering peaks of the Franconia and Kinsman mountain ranges. Franconia Notch includes the Flume Gorge (a natural 800-foot chasm with waterfalls, covered bridges and glacial boulders), Echo Lake, the Basin (a deep glacial pothole), and Cannon Mountain Aerial Tramway (80-passenger aerial tramway whisks you above timberline to the 4,100-foot summit for outstanding views of the White Mountains).
- Experience a bird's eye view of spice-colored valleys from a soaring gondola or tram car as you quietly climb over tawny slopes up to mountain summits or scream down a mountainside on a high flying zip line tour.
